Run out of time, and you'll get to experience it fatally tearing out of your chest in first person.. Ellen Ripley (Sigourney Weaver) has been cloned from preserved DNA, allowing the military scientists aboard the USM Auriga to extract the alien queen left within her from the events of Alien 3.. The game isn't over though – you'll wake up with a new “chestbuster meter” quickly draining, and have about a minute to locate and use a portable autodoc to cut the parasite out.
